21-25 May 2018

ICD-10 Training Course for Coders (Batch 1)

**For: Physicians, nurses, medical technologists,
 nutritionist-dietitians, teachers, professors,
 academicians, staff personnel**

Through this course, participants learn the steps in using the World Health Organization's ICD-10 as a coding tool. The course covers 26 modules, including the definition of ICD-10, benefits derived from its usage, history of its development, its elements and structures, the general guidelines for coding, and specific instructions for coding morbidity and mortality data.
