Health Research Methods (Batch 1)

For: Physicians, dentists, nurses, medical technologists, nutritionist-dietitians, physical therapists, occupational therapists, speech pathologists, midwives, sanitarians, teachers, professors, academicians, researchers, staff personnel

This 3-day course will focus on the different steps in planning for and conduct of health research. The teaching-learning strategies include lectures, workshops and group discussions. The participants will apply the concepts learned in the development of their individual research proposals. During plenary sessions, participants will present their capsule proposals, which will then be commented on by fellow participants and a facilitator for fine-tuning.
