

The Curriculum

Core Courses		11 units
Epi 202	Statistical Methods in Epidemiology	2 units
Epi 204	Study Designs in Epidemiology	2 units
CE 201	Fundamentals of Clinical Economics, Health Social Science and Ethics in Research	2 units
Biostat 201	Fundamentals of Biostatistics I	3 units
Biostat 202	Fundamentals of Biostatistics II	2 units
Major Courses		13 units
Epi 203	Communicable Disease Control	2 units
Epi 206	Epidemiology of Noncommunicable Diseases	2 units
Epi 207	Disease Outbreak Investigation	1 unit
Epi 297.1	Seminars in Epidemiology I	1 unit
Biostat 206	Research Methods I	2 units
Biostat 220.1	Introduction to Microcomputer Systems for Public Health Workers	1 unit
HPAd 201	Principles of Health Administration I	2 units
HPAd 202	Principles of Health Administration II	2 units
Elective Courses		10 units
Epi 205	Evaluation Research	2 units
Epi 208	Epidemiology in Health Services	2 units
Epi 212	Sampling Methods in Epidemiologic Investigations	2 units
Biostat 203	Non- Parametric Procedures in Biometric Research	2 units
Biostat 209	Experimental Designs	2 units
Biostat 211	Computer Applications in Biostatistics	3 units
*Other elective courses may be taken from other departments within CPH or in other colleges subject to the consent of the adviser.		
Thesis		6 units
TOTAL		40

Faculty Profile

DEPARTMENT OF EPIDEMIOLOGY AND BIOSTATISTICS

Professor Emeritus
Ofelia P. Sanial, MPH, PhD

Professor
Abubakar S. Asaad, MAT, MOS, PhD
Ma. Carmen C. Tolabing, MPH, DrPH

Associate Professors
Paul Adrian V. Pinlac, MD, MPH, MSc
Amiel Nazer C. Bermudez, MD, MPH
Derick Erl P. Sumalapao, MSc, MD, DrPH(Medical Microbiology)
Louella Patricia D. Carpio, MD, DFM
Paulyn Jean A. Claro, MS(Epidemiology, PhD(Health Sciences))

Assistant Professors
Alvin Duke R. Sy, MSPH(Biostatistics)
Angelica Anne E. Latorre, MPH

Application forms may be obtained from and mailed/returned to:

THE DIRECTOR
National Graduate Office for the Health Sciences

Tel Nos.: (+632)8526-5870, (+632)8523-1495

Telefax: 8523-1498

Email: upm-ngohs@up.edu.ph, ngohs@post.upm.edu.ph

COLLEGE OF PUBLIC HEALTH

University of the Philippines Manila

The Health Sciences Center

Master of Science in Epidemiology (Public Health)

SEAMEO TROPMED
Regional Centre for Public Health,
Hospital Administration,
Environmental and Occupational Health

Rationale and Objectives

The Master of Science in Epidemiology (Public Health) program is a two-year program designed to equip health professionals with the skills in the application of epidemiologic concepts, theories and principles to the solution of public health problems.

At the end of the program, the student should be able to:

1. Handle effectively research units, organizations, institutions, or projects, with their respective human, infrastructure, material, and time resources (research management)
2. Solve cases, situations, conflicts, and problems related to the application of research to the profession (critical appraisal)
3. Design and implement Epidemiologic research and surveillance system adhering to professional, social and ethical standards
4. Communicate research problems, findings, and interpretations in written and oral forms across all types of audiences, venues, and media,
5. Work with colleagues and co-researchers within and outside one's profession, in the promotion of the research culture and critical inquiry,
6. Formulate relevant research outputs that can be used in policy making, institution building, and social change
7. Promote the ideals and philosophy of the university, community service, social justice, love of Filipino culture and heritage, and respect of other cultures and nations
8. Model professional, social, and ethical standards of behavior

Academic Information

The academic year is divided into 2 semesters of 16 weeks each, excluding registration and final examination periods. The first semester starts in August and ends in December, while the second semester covers the period from January to May. The midterm of 6 weeks following the 2nd semester is usually in June and July. Classes are held Monday through Friday from 8:00 am to 5:00 pm.

English is generally used as the medium of instruction. A full-time student's normal load is 12-15 units per semester; a part-time student enrolls in half of these. The tuition fee is ₱990.00 per unit, library fee is ₱1,050.00 and other fees is ₱350 per semester. A student with a load of 15 units in a semester matriculates ₱16,250.00 on the average while a foreign student pays an additional Educational Development Fund of US\$ 500.00 (US\$100.00 for residency only) for every semester. There is a processing fee of ₱300.00 for Filipino applicants while interested foreigners are charged US\$ 30.00. Application materials can be submitted before the end of March of each year.

The following are the grade requirements for each student to be of good standing in the program: 1) general weighted average of 2.00 or better, 2) weighted average of 2.00 or better for the core courses, and 3) no grade of 5.00 in any academic course. A maximum of 5 years is given to a student to finish the program.

Admission Requirements

1. Good scholastic record from any recognized institution of higher learning
2. Possession of a baccalaureate degree with adequate credits in the biological and physical sciences
3. Must have taken Epi 201 (Principles of Epidemiology) within the last 5 years or pass a validating exam if they have taken a course equivalent to Epi 201 with a grade of 75% (Applicants who have not yet taken Epi 201 may still be admitted but they have to formally enroll in the course and get a grade of 2.0 or better)
4. Shiftees from other programs with a GWA of 2.0 or better with no failing grade may be admitted provided they go through the application process required for all students who shift to another course
5. At least 1-year work experience in the related field

Application

An Application Form (available at the Graduate Office or through www.ngohs.upm.edu.ph) must be duly accomplished and submitted to the National Graduate Office for the Health Sciences (NGOHS) together with the following:

- Original copy of the official Transcript of Records
- Two (2) recommendations from former professors, supervisors or employers (forms included in the application packet)
- Receipt of processing fee paid at the UPM Cashier's Office
- Certified true copy of college diploma with the seal of the university and the signature of the registrar in ink
- Four (4) passport-size photos
- Resume or curriculum vitae
- Essay on an 8½" x 11" sheet of paper describing your motivation for pursuing graduate study and your view of self-directed learning as a method of instruction, and a description of your research interest

For foreign applicants, additional requirements include:

- Original Transcript of Records in English. If written in another language, must be translated to English and authenticated by the Philippine consulate / embassy from country of origin
- Certified true copy of diploma with the seal of the university and the signature of the registrar in ink. If written in another language, must be translated to English and authenticated by the Philippine consulate / embassy from country of origin
- TOEFL (or its equivalent) score of at least 500 (written test) or 173 (computerized test) if English is not the medium of instruction in the country of origin
- Affidavit of support or certification of financial capability

Graduation Requirements

- Residency of at least 1 full academic year immediately prior to the granting of the degree
- Completion of a minimum of 34 units of formal courses (11 units of core courses, 13 units of major courses, 10 units of electives)
- GWA of 2.00 or better in core courses and in all courses taken provided there is no grade of 5.00 in any of them
- Satisfactory completion and submission of 6 bound copies of a master's thesis
